

K-STYLE (OGEE) GUTTER DIMENSIONS

- ✓ Most homes are fitted with 5” K-Style gutters
- ✓ Homes with roof areas exceeding 2,700 square feet should use 6” K-Style gutters
- ✓ Gutters should be angled 1” drop every 16 feet with the downspout at the lowest point

The width from the back (“A” below) to the leading edge of the front lip (“E” below) should measure 4 5/8”- 5” on a 5K gutter & 5 5/8”-6” on a 6K gutter

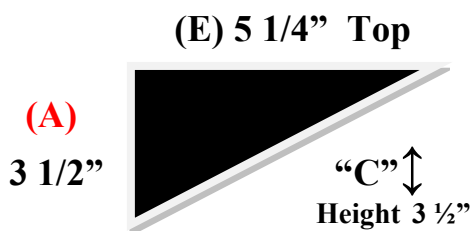

K-Style Gutters are very commonly used but there is no “Standard” size. This graphic to the right and the chart below are commonly used dimensions.

	“A” Back/House	“C” Height	“E” Top Opening
5” K-Style Gutter	3 1/2”	3 1/2”	4 7/8 - 5”
6” K-Style Gutter	4 1/2”	4 1/2”	5 7/8 - 6”
